

MOAMEN ALAA MOSTAFA ATIA

Software Engineer

Cairo, Egypt • +201004331573 • moemenatia4@gmail.com

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building responsive, scalable web and mobile applications using React, Next.js, TypeScript, and Supabase. Combines hands-on full-stack development with 200+ students taught as a frontend instructor and mentor. Currently pursuing a Master's in Software Engineering at GIU while leading the development of an internal proctoring and scheduling platform for 77+ teaching assistants.

EDUCATION

M.Sc. in Software Engineering Oct 2025 – Oct 2027 (Expected)

German International University (GIU), Cairo

B.Sc. in Computer Software Engineering 2025

Egyptian Chinese University — CGPA: 3.58 / 4.0

PROFESSIONAL EXPERIENCE

Teaching Assistant — German International University (GIU) Oct 2025 – Present

Onsite, Cairo

- Assist faculty in delivering software engineering and Business Continuity & Risk Management courses; mentor students through technical concepts and assignments.
- Leading the development of an internal proctoring management system to coordinate scheduling, exam supervision, and attendance for 77+ teaching assistants across multiple courses.
- Conduct office hours and lab sessions, simplifying complex engineering topics and supporting students with debugging and project work.

Frontend Instructor — Route Academy Oct 2023 – Oct 2025

Hybrid, Cairo — Progressed from Mentor (Oct 2023) to Instructor (Nov 2024)

- Delivered hands-on frontend courses to 200+ students covering React.js, Next.js, JavaScript, modern CSS, and responsive design.
- Designed curriculum, exercises, and project briefs; mentored students through debugging, performance optimization, and code reviews.
- Maintained 1:1 office hours and async support, translating complex technical concepts into accessible learning material.

Frontend React.js Intern — Manifesto Business May 2024 – Aug 2024

Onsite, Cairo

- Built React components and screens for the HAAI consumer product, translating Figma designs into responsive, production-ready interfaces.
- Integrated RESTful APIs across multiple user flows and managed application state with Context API.
- Collaborated with backend and design teams in an agile workflow to ship features end-to-end.

Frontend Vue.js Intern — Ensoulify Sep 2024 – Oct 2024

Remote

- Implemented interactive Vue.js components and contributed to shipping frontend features in collaboration with the engineering team.

Founding Chairman — ICPC-ECU Competitive Programming Community Oct 2022 – Aug 2023

Egyptian Chinese University

- Founded and led the university's competitive programming community; organized contests, workshops, and algorithmic training sessions.
- Built a peer-driven learning environment focused on data structures, algorithms, and problem-solving.

FEATURED PROJECTS

TA Proctoring Management System Next.js • TypeScript • Supabase • Tailwind

- Internal platform under active development to serve 77+ TAs at GIU; coordinates exam proctoring assignments, schedules, and attendance across multiple courses.
- Designed a scheduling engine that handles complex constraints — TA availability, course coverage, exam slots, and conflict detection.
- Built with Next.js App Router, TypeScript, Supabase (Postgres, Auth, Realtime), and Tailwind CSS; role-based access for admins, professors, and TAs.

Rose Gifts — E-commerce Platform Next.js • NextAuth • React Query • shadcn/ui

- Full-stack gifting platform with authentication, product catalog, cart, and checkout flow; built with Next.js App Router and server-side data fetching.
- Implemented optimistic updates and caching with React Query; styled with Tailwind CSS and shadcn/ui component library.

Zoom Clone — Real-time Video Conferencing Next.js • TypeScript • Clerk • GetStream

- Video conferencing web app with scheduled meetings, instant rooms, recording, and personal meeting links.
- Integrated Clerk for authentication and GetStream SDK for real-time video, audio, and chat features.

Interactive 3D Portfolio React • Three.js • React Three Fiber • Tailwind

- Personal portfolio built with custom 3D scenes, interactive animations, and responsive layouts using React Three Fiber on top of Three.js.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js (App Router), Vue.js, React Native, Flutter, Tailwind CSS, SASS, Bootstrap, shadcn/ui

State & Data: Redux, React Query, Context API, React Hook Form, Zod

Backend & Database: Node.js, Express.js, Supabase (PostgreSQL, Auth, Realtime), REST APIs

3D & Real-time: Three.js, React Three Fiber, WebSockets

Testing & Tools: Jest, React Testing Library, Git, GitHub, Vercel

Concepts: Algorithms & Data Structures, System Design Fundamentals, Responsive Design, Performance Optimization, Business Continuity & Risk Management (BCRM)

CERTIFICATIONS & LANGUAGES

- Frontend Web Development Diploma — Route Academy (2023)
- Problem Solving — Coach Academy (2022)
- ECPC Qualifications (2023) • IEEEExtreme 16.0 Programming Competition (2023)

Languages: Arabic (native) • English (fluent)
